### What's New in the?

Emma Ad Blocker will help you block ads from any website that you visit. The ad blocker only blocks advertisements from specific websites. You do not need to be looking at a website to block its ads. Each time you visit a website that has banner ads (which are blocked by the most popular ad blockers) you will see a notification in your notifications bar telling you what websites you have visited and have ads on. On Windows OS, just click the notification in your notification bar, right click and select "Emma Ad Blocker". You'll see the list of blocked ads for each website! You can also use it for browsing into a new website by double clicking on the notification in the notification bar. You can also open an URL via the notification or type it in manually. In addition to blocking ads, Emma Ad Blocker also lets you easily manage your blocked websites. Open the window, click "Add websites" and type in the URL of the website, click "Add". Ads blocked by Emma Ad Blocker: - Popups - Pop under banner (native ads) - Click to play ads - Click to play other ads - Banner ads - Pop-under ads - Native ads - Youtube ads -
